

Could you be entitled to **PENSION CREDIT?**

Money saving expert Martin Lewis has warned that one million pensioners may be missing out on a crucial cost of living benefit.

If your weekly income is below £220 per week, or £320 for couples, you may be eligible for Pension Credit, which tops up your income and unlocks other entitlements including:

- **Housing Benefit**
- **Cost of Living payments**
- **Council Tax discounts**

Could this be you or someone you know?
